A distinguished brick Colonial is elegantly situated on a prominent ended way. The manicured estate property creates an unforgettable landscape with an outside fireplace with a pizza oven and blue stone patio. The palatial entry is accented with columns, a decorative hardwood floor and soaring ceilings. The chef's kitchen and breakfast room adjoins a spacious family room. French doors invite you to an elegant solarium overlooking the magnificent grounds. The grand and open design includes a formal dining room that leads to an informal sitting room and office. A separate two bedroom guest suite equipped with a living room and kitchen is privately situated on the second landing. The master bedroom has a fireplace, abundance of closets and an outside balcony. The marble spa-inspired master bathroom is relaxing and luxurious. The lower level has a home theater, game room, wine room and full bathroom. Conveniently located near the Weston Schools and offering an excellent commute to Boston.
